EXPERIENCE

Cliques Co., *Front End Mobile Developer, U.S (Remote)*

JULY 2023 - PRESENT

Develop custom components using IDEs, bundlers, libraries, and languages such as **Android Studio, React**, **Redux**, **React Native**, **and BitBucket.** Ensuring components are modular and well tested using the **Jest** testing suite.

Integrating, updating, and refactoring relevant project dependencies while enhancing existing source code in order to improve customer engagement.

Collaborate with team to create actionable plans to tackle client issues or requests through weekly stand-ups and individual meetings

Expanding knowledge of React Native framework and libraries in order to develop new mobile experiences through use of state management with Redux.

Freelance, *Front End Web Developer, NYC*

MAY 2022 - PRESENT

Developed custom websites using bundlers, libraries, and languages such as **Vite, React**, **Jotai**, **React Router**, **Javascript, and GitHub** which can be viewed in my [online portfolio](#).

Keen eye for **modern design aesthetics** integrating libraries such as **React Spring** and **Lottie** while enhancing **responsive design** with **full user accessibility** in order to **improve customer engagement**.

Expanding knowledge of React framework and libraries in order to migrate multi-page user experiences into single-page applications through use of state management with **React Context** or **Jotai,** page routing with **React Router,** and page deployment with *API rerouting* or *form submissions* data handling with **Netlify**.

Julie Vos, *Fulfillment Specialist, NYC*

MAY 2022 - JAN 2023

Responsible for accurately processing customer's orders including picking the items to fill the order, to carefully packaging and readying the items for shipping internationally.

Assisted with inventory log, keeping storage racks clean and easy to pull product when needed.

Unloaded and prepared confidential company product shipments from overseas production factories to refill backroom storage.
